

# ROBERTA (Manual) XF003

ЭЛЕКТРИЧЕСКИЙ

Вместимость	3 342x242
Расстояние	70 mm
Частота	50 / 60 Hz
Напряжение	230 V- 1N
Мощность	2,7 kW
Размеры	480x402x523 mm
Вес	16 kg

	ELECTRIC
■ Standard    □ Optional    - Not available	
<b>BAKING MODES</b>	
Convection baking 30 °C - 260 °C	■
<b>AIR DISTRIBUTION IN THE BAKING CHAMBER</b>	
AIR.Plus technology: fan with reversing gear on models 600x400 only	■
<b>CLIMA MANAGEMENT IN THE BAKING CHAMBER</b>	
DRY.Plus technology: high performance moisture and humidity extraction	■
<b>PANS</b>	
Flat aluminum pans (only for 460x330 and 342x242 models)	■
<b>AUXILIARY FUNCTIONS</b>	
Protek.SAFE™ technology: maximum thermal efficiency and working safety (cool door glass and external surfaces)	■
Visualisation of the residual baking time	■
Continuous functioning «INF»	■
Visualisation of the set and real temperature values in the oven chamber	-
Temperature unit that can be set in °C or °F	-
<b>DOOR OPENING</b>	
Manual door opening from top to bottom	■
<b>TECHNICAL DETAILS</b>	
Rounded baking chamber made of high resistant ferritic steel for hygiene and ease of cleaning	■
Baking chamber lights	■
Light weight – heavy duty structure using innovative materials	■
Proximity door contact switch	■ (XF043)
Auto-diagnosys system for problems or brake down	-
Safety temperature switch	■
